### **Technical Skills**

- Wireframe / mockup tools: Axure, Sketch and Origami Studio
- Webpage coding: HTML, CSS, JavaScript, Java, Adobe Dreamweaver
- Architecture-related software: Photoshop, Illustrator, MS Office, SQL Server

### **Work Experience**

**IT Project Intern** - Seaspan Ship Management Ltd., Vancouver April - August 2017

- Assist IT project manager with assigned tasks by understanding desired outcome of task, implement work plan and reporting results back to project manager.
- Coordinated update of a software package for deployment to 100 ships.
- Updated anti-virus software and verified it was successfully implemented on 400 PCs across 50 ships.
- Communicate with supervisor as challenges arose to ensure project was complete on time.

### **School Projects**

**Web Design and Development** - Final Project, SFU Spring 2019

- Designed the front-end of an e-commerce website in a team of 2
- Created a style guide, to ensure the whole website had the same look and feel
- Coded (HTML, CSS, JavaScript) various pages so that they were easy to use and responsive

**Interface Design** - Final Project, SFU Spring 2019

- Designed and built an app prototype with Origami Studio in a team of 3
- Performed user testing to determine shortcomings in our design
- Revised design and implemented changes for a more user friendly interface.

### **Certifications & Award**

**Queen's Venturer Award** Scouts Canada 2015

- The highest proficiency award for youth members in Scouts Canada. Awarded for displaying the character and ability to be of significant help to other people; and, having thoroughly trained in Scoutcraft, places that training at the disposal of the community for Public Service and demonstrated leadership ability.
